STOP GOV. GREG ABBOTT’S VOTER SUPPRESSION SCHEME!

These changes would disproportionately affect people of color, along with poor and young voters. These bills aim to:

- Ban drive-through and outdoor voting.
- Eliminate large voting sites meant to make voting quicker.
- Criminalize small mistakes for people assisting voters to register.
- Increase burdens on voters with disabilities.

SB7 and HB6 are unconstitutional, anti-voter, and anti-democratic.

...And if you're not careful, Greg Abbott will come at night to take away your voting rights.

Dear _____,

As a Texan who takes the right to vote seriously, I urge you to fight against Senate Bill 7 and House Bill 6 in the Texas legislature. These bills attempt to throw up more barriers and blocks for individuals to register to vote and cast a ballot that counts. Right now, our state is facing multiple crises. This raises the question: why pursue these bills when we as Texans are still suffering through the pandemic and still need answers and accountability for the Blackouts that took millions of us, SB7 and HB6 disproportionately affect young people, people with disabilities, older individuals, and communities of color. We can't allow Jim Crow tactics to sneak past the Capitol under the guise of security. Vote no on HB6 and SB7.
REJECT HB SIX

DON'T MESS WITH TEXAS VOTERS
What is the Power Act and why do we need more legislation like it?

The Power Act keeps our shining bright

Directs the Texas Commission for Environmental Quality to implement rules and regulations to require the reporting and verification of statewide greenhouse gas emissions sources, including steps for the commission to monitor and enforce emissions reductions compliance.

But it would be nice if we didn’t have to show that off quite so often.

Experts have linked an increase in extreme weather events to climate change. The more we burn fossil fuels, the more often we should expect to face disastrous weather conditions.

Let’s do our part to keep each other safe, and keep Texas strong, by supporting efforts to reduce fossil fuel emission in Texas.
